Her love, through genuine, made Tricki unhealthy. She couldn't resist spoiling him, which ultimately led to his poor condition and the need for medical intervention.

Q3 why did Mrs. Pumphrey sent Tricki's favourite things when he left for the surgery.

Ans Mrs. Pumphrey sent Tricki's favourite Things - his toys, blankets, and special food - because she was deeply attached to him and worried about his well-being. She believed he would miss his comforts and hoped they would help him feel at ease during his stay at the hospital. Her excessive care showed her love but also ~~to~~ her ~~over~~ overindulgence.

IV Answer the following Long Answers:

Q1 what are your views on excess of everything is bad with reference to the chapter.

Ans The story 'The Triumph of Surgery' perfectly illustrates the idea that excess of anything can be harmful. Tricki, Mrs. Pumphrey's beloved dog, was spoiled with rich food, pampering, and excessive care. Her overindulgence, through driven by love, ultimately made Tricki unhealthy, weak, and incapable of living a normal life.

Similarly, in life, too much of anything - be it food, luxury, or even emotions - can lead to negotiate consequences. Excessive wealth may not bring true happiness, too much care can make someone dependent, and uncontrolled indulgence can lead to serious health issues. Tricki's recovery in the hospital was possible only because the vet enforced discipline, balanced his diet, and encourged exercise, showing that moderation is key to a healthy life.

The story is a gentle reminder that balance and restraint are necessary in every aspect of life, whether in relationships, lifestyle, or even personal habits. Too much of anything - even love - can something do more harm than good.
