Marking Scheme
Strictly Confidential
(For Internal and Restricted use only)
SECONDARY SCHOOL SUPPLEMENTARY EXAMINATION, 2025
SUBJECT NAME : COMPUTER APPLICATION (SUB. CODE-165)

General Instructions: -

1.	You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully.
2.	**"Evaluation policy is a confidential policy as it is related to the confidentiality of the examinations conducted, Evaluation done and several other aspects. Its leakage to public in any manner could lead to derailment of the examination system and affect the life and future of millions of candidates. Sharing this policy/document to anyone, publishing in any magazine and printing in Newspaper/Website etc. may invite action under various rules of the Board and IPC."**
3.	Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one's own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. **However, while evaluating, answers which are based on latest information or knowledge and/or are innovative, they may be assessed for their correctness otherwise and due marks be awarded to them. In class-X, while evaluating two competency-based questions, please try to understand given answer and even if reply is not from marking scheme but correct competency is enumerated by the candidate, due marks should be awarded.**
4.	The Marking Scheme carries only suggested value points for the answers. These are in the nature of Guidelines only and do not constitute the complete answer. The students can have their own expression and if the expression is correct, the due marks should be awarded accordingly.
5.	The Head-Examiner must go through the first five answer books evaluated by each evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. If there is any variation, the same should be zero after delibration and discussion. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators.
6.	Evaluators will mark (√) wherever answer is correct. For wrong answer CROSS 'X' be marked. Evaluators will not put right (✓) while evaluating which gives an impression that answer is correct and no marks are awarded. **This is most common mistake which evaluators are committing.**
7.	If a question has parts, please award marks on the right-hand side for each part. Marks awarded for different parts of the question should then be totaled up and written in the left-hand margin and encircled. This may be followed strictly.

8.	If a question does not have any parts, marks must be awarded in the left-hand margin and encircled. This may also be followed strictly.
9.	If a student has attempted an extra question, answer of the question deserving more marks should be retained and the other answer scored out with a note **"Extra Question"**.
10.	No marks to be deducted for the cumulative effect of an error. It should be penalized only once.
11.	A full scale of marks _____(example 0 to 80/70/60/50/40/30 marks as given in Question Paper) has to be used. Please do not hesitate to award full marks if the answer deserves it.
12.	Every examiner has to necessarily do evaluation work for full working hours i.e., 8 hours every day and evaluate 20 answer books per day in main subjects and 25 answer books per day in other subjects (Details are given in Spot Guidelines).This is in view of the reduced syllabus and number of questions in question paper.
13.	Ensure that you do not make the following common types of errors committed by the Examiner in the past:- ● Leaving answer or part thereof unassessed in an answer book. ● Giving more marks for an answer than assigned to it. ● Wrong totaling of marks awarded on an answer. ● Wrong transfer of marks from the inside pages of the answer book to the title page. ● Wrong question wise totaling on the title page. ● Wrong totaling of marks of the two columns on the title page. ● Wrong grand total. ● Marks in words and figures not tallying/not same. ● Wrong transfer of marks from the answer book to online award list. ● Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.) ● Half or a part of answer marked correct and the rest as wrong, but no marks awarded.
14.	While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as cross (X) and awarded zero (0) Marks.
15.	Any unassessed portion, non-carrying over of marks to the title page, or totaling error detected by the candidate shall damage the prestige of all the personnel engaged in the evaluation work as also of the Board. Hence, in order to uphold the prestige of all concerned, it is again reiterated that the instructions be followed meticulously and judiciously.
16.	The Examiners should acquaint themselves with the guidelines given in the "**Guidelines for Spot Evaluation**" before starting the actual evaluation.
17.	Every Examiner shall also ensure that all the answers are evaluated, marks carried over to the title page, correctly totaled and written in figures and words.
18.	The candidates are entitled to obtain photocopy of the Answer Book on request on payment of the prescribed processing fee. All Examiners/Additional Head Examiners/Head Examiners are once again reminded that they must ensure that evaluation is carried out strictly as per value points for each answer as given in the Marking Scheme.

Set 4

MARKING SCHEME

COMPUTER APPLICATION (SUB. CODE-165)

Q. No.	Section – A	Marks
1.	D. Chat *(1 mark for correct answer)*	**1**
2.	C. TELNET *(1 mark for correct answer)* ***Note:*** *Full 1 mark to be awarded if None of the above is mentioned, as Telnet is not for secure login.*	**1**
3.	B. bgcolor *(1 mark for correct answer)*	**1**
4.	B. To display the content of World Wide Web *(1 mark for correct answer)*	**1**
5.	D. A computer that stores and delivers web pages *(1 mark for correct answer)*	**1**
6.	A. Transmission Control Protocol *(1 mark for correct answer)*	**1**
7.	C. ` ` *(1 mark for correct answer)*	**1**
8.	D. The website is secure using encryption *(1 mark for correct answer)*	**1**
9.	B. Copying files from a remote server to our local device *(1 mark for correct answer)*	**1**
10.	C. To make a cell span across multiple rows	**1**

(1 mark for correct answer)

11. A. Both Assertion (A) and Reason (R) are true and Reason (R) is a correct explanation of Assertion (A). **1**

(1 mark for correct answer)

12. D. Assertion (A) is false and Reason (R) is true. **1**

(1 mark for correct answer)

Q. No.	**Section – B** **(7 × 2 = 14 Marks)**	**Marks**

13. Intellectual property rights are legal rights to protect creations of the mind. **2**

Two types of Intellectual property rights

Copyright and Patents.

(1 Mark each for correct definition)

(1 Mark for any two correct examples)

14. (A) e-L**earning:** e-Learning, or electronic learning, refers to the use of digital technology (like computers, smartphones, or the internet) to deliver educational content and training outside of a traditional classroom. **2**

One advantage of e-Learning:

Flexibility – Learners can access the content anytime, anywhere, at their own pace.

OR

Any other valid advantage

(1 Mark each for correct definition)

(1 Mark each for one correct advantage)

OR

(B) 3G :

- Technology : Older technology using 3rd generation networks. Good for basic internet needs and calling.

- Can get crowded and slow down when many people are using it at the same time. Bandwidth is limited, so it can't handle too much data quickly.
- Good for basic web browsing, social media and emails. Steaming video works, but it might be lower quality.
- Less efficient with data and battery usage compared to 4G.

4G:

- Technology : Newer technology using 4th generation networks. Designed for high-speed internet and supports more modern applications.
- Handles more data at once and remains faster even if many people are using it. More bandwidth means better performance for everyone.
- Great for high-quality video streaming, online gaming, and using apps that require a lot of data. Offers a better experience for all types of internet activities.

(2 Mark for one correct difference)

15. I. False **2**

II. False

III. False

IV. True

(½ mark for each correct response)

16. (A) **2**

```
<a href="https://www.python.com"><img src="Python.jpg"
alt="Python"></a>
```

(2 Marks for correct code)

OR

(B)

```
<ol start="5">
   <li>C</li>
   <li>Java</li>
   <li>Python</li>
```

```
</ol>
```

(2 Marks for correct code)

17. **2**

(i)The alt (alternative text) attribute: It is used to provide a description of the image. It is displayed when the image cannot be loaded and is also used by screen readers for accessibility.

(ii) The alink (active link) attribute: It sets the color of a hyperlink when it is being clicked (active state). It is used in the <body> tag but is now outdated in modern HTML.

(1 Mark for each correct explanation)

18.a. **2**

```
<html>
<head><title>My Page</title></head> <!-- Line 1 -->
<body background="flowers.jpeg"> <!-- Line 2 -->
<h1> welcome</h1>
<ul type="square"> <!-- Line 3 -->
<li> drinks</li>
<li> desserts</li>
</ul>
<hr width="50%"> <!-- Line 4 -->
</body>
</html>
```

(½ Mark for each correct fill-up)

OR

b.

```
<html>
<head>
<style>
body {
  background-color: pink;  <!-- Line 1 -->
}
```

```
h4 {
 color: blue;          <!-- Line 2 -->
  font-size: 24px;
  margin: 20px;        <!-- Line 3 -->
}
</style>               <!-- Line 4 -->
</head>
</html>
```

(½ Mark for each correct fill-up)

19. **2**

Video conferencing is a technology that allows people at different locations to hold face-to-face meetings using the internet, with the help of webcams, microphones, and video software.

One Advantage of Video Conferencing:

Saves Time and Travel Costs – It allows people to communicate in real time without the need to travel, making meetings faster and more cost-effective.

(1 Mark for correct answer)

(1 Mark for correct advantage)

Q. No.	**Section – C** **(4 × 3 = 12 Marks)**	**Marks**

20. (i) **3**

Incorrect:

```
<img href="image.jpg" width="300">
```

Corrected:

```
<img src="image.jpg" width="300">
```

(ii)

Incorrect:

```
<font height="18">
```

Corrected:

```
<font size="18">
```

(iii)

Incorrect:

<a mail="info@cbse.gov.in">Send Email</a>

Corrected:

<a **href="mailto:**info@cbse.gov.in">Send Email</a>

(1 Mark for each correction)

21. (i) A web client (usually a web browser like Chrome, Firefox, or Edge) is software that sends requests to a web server and displays the content (such as web pages) to the user. It enables users to access and interact with websites on the internet. **3**

(ii) A Newsgroup is an online discussion group where people post and read messages (called articles or posts) on a specific topic. It works like a bulletin board system and is part of the Usenet system.

Example:

comp.lang.python – a newsgroup where users discuss topics related to the Python programming language.

(1.5 Marks each for each correct answer)

22. (A) **3**

```
<html>
  <body>
    <audio controls loop>
      <source src="birthday.mp3" type="audio/mpeg">
    </audio>
  </body>
</html>
```

(1 mark each for correct code for parts a, b and c)

OR

(B)

```
<dl>
   <dt>HTML</dt>
   <dd>HyperText Markup Language</dd>
   <dd>Used for creating web pages</dd>
</dl>
```

(3 marks for correct code)

23. (A) **3**

I. `H<sub>2</sub>SO<sub>4</sub>`

II. `(A+B+C)<sup>3</sup>`

(1 mark for each correct code)

OR

(B) Empty elements – `<br><hr>`

Container Elements – `<font><p><head><body>` etc.

Note: Consider other valid element names as well.

(½ mark each for the correct one empty and one container element name)

Q. No.	Section – D (1 × 4 = 4 Marks)	Marks
24.	(A)	**4**

```
<html>
<head>
  <title>User Information Form</title>
</head>
<body>
  <h1>User Details</h1>

  <form>
    <label>Name :</label>
    <input type="text"><br><br>

    <label>Gender :</label>
    <input type="radio" name="gender">
    <label>Male</label>

    <input type="radio" name="gender">
    <label>Female</label>

    <input type="radio" name="gender">
    <label>Other</label>

    <br><br>
    <label>Hobbies :</label><br><br>

    <input type="checkbox" name="hobby1">
    <label>Reading</label><br><br>

    <input type="checkbox" name="hobby2">
    <label>Travelling</label><br><br>

    <input type="checkbox" name="hobby3">
    <label>Cooking</label><br>
  </form>
</body>
```

```
</html>
```

(1 mark each for each correct answer)

OR

```
<html>
<head>
  <title>Shopping List</title>
</head>
<body>
  <table border="1">
    <tr>
      <th colspan="3"><u>MY SHOPPING LIST</u></th>
    </tr>
    <tr>
      <th>CATEGORY</th>
      <th>NAMES</th>
      <th>QUANTITY</th>
    </tr>
    <tr>
      <td rowspan="2">APPAREL</td>
      <td>SHIRT</td>
      <td>FOUR</td>
    </tr>
    <tr>
      <td>TROUSERS</td>
      <td>TWO</td>
    </tr>
    <tr>
      <td>SHOES</td>
      <td>SNEAKERS</td>
      <td>ONE</td>
    </tr>
  </table>
</body>
</html>
```

(1 mark each for correct implementation of specification 1 & 3)
(2 marks for correct implementation of specification 2)

Q. No.	Section – E (2 × 4 = 8 Marks)	Marks

25. (i) E-Commerce *(Electronic Commerce)* **4**

(ii) She should have verified the authenticity of the website, such as checking reviews, contact details, and reputation before making any purchase.

(iii) She should immediately inform her bank or credit card provider to block the card and prevent further transactions.

(iv) She should check that the website address starts with https:// and look for a padlock icon in the browser address bar, indicating a secure connection.

(1 mark each for correct answer)

26. (i) The term used for good online behaviour is Netiquette. **4**

(ii)

Two good practices that one should follow while working online:

1. Be respectful and polite while communicating in online classes or forums.
2. Do not share false or copyrighted content without proper permission or credit.

OR

Any other valid answer

(iii) Copyright violation.

(iv) They may face legal action or disciplinary action from the school, such as suspension or being barred from online platforms.

OR

Any other valid answer

(1 mark each for correct answer)
